Pae, Bashore, Stark, and
Alonso-Sandoval of the
House

and

Hamilton of the Senate

FLOOR SUBSTITUTE

[technology - social artificial intelligence
companions - protocols - civil penalties - rulemaking
authority - noncodification - codification -
effective date]

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. NEW LAW A new section of law not to be
codified in the Oklahoma Statutes reads as follows:

The Legislature finds that:

1. Artificial intelligence (AI) systems designed to simulate
sustained interpersonal companionship or emotional attachment may
present unique risks to minors due to their developmental
vulnerability to parasocial bonding;

2. The State of Oklahoma has a compelling interest in
protecting the health, safety, and well-being of minors; and

1 3. This act is narrowly tailored to restrict access by minors
2 to social AI companions while preserving lawful access by adults and
3 general conversational artificial intelligence systems.

4 SECTION 2. NEW LAW A new section of law to be codified
5 in the Oklahoma Statutes as Section 10 of Title 75A, unless there is
6 created a duplication in numbering, reads as follows:

7 A. As used in this act:

8 1. "Artificial intelligence" (AI) means an engineered or
9 machine learning-based system that varies in its level of autonomy
10 and that can, for explicit or implicit objectives, infer from the
11 input it receives how to generate outputs that can influence
12 physical or virtual environments;

13 2. "Deployer" means any person, partnership, corporation, or
14 governmental entity that operates, controls, or makes available a
15 social AI companion to users in this state. A deployer does not
16 include a mobile application store, search engine, Internet service
17 provider, or provider of general-purpose artificial intelligence
18 models solely because such entity provides access to, hosts, or
19 transmits a system developed or controlled by another person;

20 3. "Minor" means a person who is under eighteen (18) years of
21 age;

22 4. "Social AI companion" means an artificial intelligence
23 system primarily designed or marketed to simulate sustained
24 interpersonal companionship and emotional attachment or romantic

1 interaction with a user as the system's core functionality. The
2 term social AI companion does not include:

- 3 a. a system used solely for customer service, business
4 operations, productivity, analysis related to source
5 information, internal purposes, research purposes, or
6 technical assistance,
- 7 b. a stand-alone consumer electronic device that
8 incorporates a speaker or voice or text command
9 interface, acts as a virtual assistant, and does not
10 sustain a relationship across multiple interactions
11 and generates outputs intended to create emotional
12 attachment with the user,
- 13 c. a search engine feature that provides information in
14 response to user queries and is not designed or
15 marketed to simulate companionship,
- 16 d. a system designed to provide outputs relating to a
17 narrow and discrete functional topic and not primarily
18 intended to simulate interpersonal companionship,
- 19 e. a system that is not primarily designed or marketed
20 for companionship where the developer does not control
21 the specific deployment context in which the system
22 interacts with end users, or
- 23 f. a general-purpose artificial intelligence system that
24 is not primarily designed or marketed to simulate

1 interpersonal companionship, including systems used
2 for education, counseling, research, productivity, or
3 professional assistance; and

4 5. "User" means a person who interacts with a social AI
5 companion.

6 B. Deployers shall not knowingly, or under circumstances where
7 the deployer should reasonably know, make a social AI companion
8 available to a minor, and shall implement reasonable measures
9 designed to prevent minors from accessing a social AI companion.

10 Nothing in this section shall be construed to restrict lawful access
11 to such systems by adults.

12 C. A deployer shall adopt a protocol for a social AI companion
13 to respond to user prompts indicating suicidal ideation or threats of
14 self-harm that includes, but is not limited to, making reasonable
15 efforts to provide a response to the user that refers them to crisis
16 service providers such as a suicide hotline, crisis text line, or
17 other appropriate crisis services.

18 D. In the case of a violation of the provisions of this act,
19 the Attorney General may bring a civil action in the district court
20 of Oklahoma County or a district court in the county in which the
21 violation occurred to:

- 22 1. Enjoin the violation;
- 23 2. Enforce compliance with the provisions of this act; or
- 24 3. Obtain civil penalties under subsection F of this section.

1 E. The Attorney General may promulgate any rules necessary to
2 enforce the provisions of this act.

3 F. Any developer who violates the provisions of this act shall
4 be subject to a civil penalty not more than Two Thousand Five
5 Hundred Dollars (\$2,500.00) for each violation or Seven Thousand
6 Five Hundred Dollars (\$7,500.00) for each intentional violation.
7 Each day a violation continues shall constitute a separate
8 violation.

9 SECTION 3. This act shall become effective November 1, 2026.
