SECTION 1. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 550 of Title 3, unless there is created a duplication in numbering, reads as follows:

1. "Aircraft" has the same meaning as that provided in Section 252 of Title 3 of the Oklahoma Statutes, except that the aircraft shall have a gross weight of nine thousand (9,000) pounds or less and operate under the provisions of 14 C.F.R., Part 91; and

2. "Automatic dependent surveillance-broadcast" means an advanced aviation surveillance technology that combines ground infrastructure, aircraft avionics, and an aircraft's positioning source to create an accurate surveillance interface between an aircraft and air traffic control. The term consists of two different services:

1 a. ADS-B, which receives data provided by ADS-B Out, as
2 well as weather and traffic information from ground
3 stations, and

4 b. ADS-B Out, which broadcasts an aircraft's Global
5 Positioning System location, altitude, ground speed,
6 and other data.

7 B. No government entity or private individual or entity shall
8 use information broadcasted or collected by an automatic dependent
9 surveillance-broadcast system as a means for calculating,
10 generating, and collecting fees from owners or operators who operate
11 aircraft within this state.

12 SECTION 2. This act shall become effective November 1, 2026.
