A. The State Department of Education, in consultation with the State Department of Health, shall establish a two-year pilot program known as the Binocular Vision Screening Program for schools to offer vision screenings to students in kindergarten and first and third

E. The State Department of Education shall electronically submit a report on the Binocular Vision Screening Program including any legislative recommendations to the Governor, the President Pro Tempore of the Senate, and the Speaker of the House of Representatives by November 1, 2028. The Department shall post the report on its website.
