ENGROSSED HOUSE
BILL NO. 2084

By: Blair and Deck of the House

and

Daniels of the Senate

An Act relating to professions and occupations; amending Section 3, Chapter 269, O.S.L. 2024 (59 O.S. Supp. 2024, Section 1688.1), which relates to continuing education requirements; modifying license renewal and continuing education requirements; and providing an effective date.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. AMENDATORY Section 3, Chapter 269, O.S.L.
2024 (59 O.S. Supp. 2024, Section 1688.1), is amended to read as
follows:

Section 1688.1. A. 1. Effective January 1, 2026, no contractor or journeyman license shall be renewed unless the licensee has completed twelve (12) hours of continuing education every three (3) years or thirty-six (36) months preceding the ~~expiration date of the license or registration certificate~~ license renewal. If a license expires before the licensee completes the continuing education requirement, any continuing education that is completed while the license is expired will be applied to the

1 continuing education requirement for the thirty-six (36) months
2 preceding the date the license expired. Once the continuing
3 education requirement for the expired license is met, along with any
4 other requirements, the expired license may be renewed. Twelve (12)
5 hours of continuing education will have to be completed in order to
6 meet the continuing education requirement for the subsequent thirty-
7 six-month period. The continuing education course and instructor
8 shall be approved in advance by the Committee of Electrical
9 Examiners. Exceptions to advance approval, or post-course approval,
10 may be allowed by the Committee, or its designee, for substitute
11 instructors in emergency situations when written notice of the
12 emergency is provided to the Committee, or its designee, within
13 seven (7) days of the course. The location of continuing education
14 courses shall be at the discretion of the course provider and may be
15 scheduled during the workday at the discretion of the course
16 provider. The continuing education material shall cover six (6)
17 hours of codes and revisions adopted by the Oklahoma Uniform
18 Building Code Commission (OUBCC). The remaining six (6) hours may
19 include the study of: electrical circuit theory and calculations,
20 wiring methods, grounding and bonding, transformer and motor theory,
21 electrical circuits and devices, control systems, alternative energy
22 systems including energy storage, safety related to the electrical
23 industry as defined by NFPA 70E, manufacturers' installation of
24 equipment or parts, the Electrical License Act, the trade

1 regulations as set forth in this act as well as the rules of the
2 Construction Industries Board, and other trade subject matters
3 approved by the Committee.

4 2. Effective January 1, 2026, no apprentice shall be permitted
5 to reregister unless the apprentice registrant has completed three
6 (3) hours of continuing education every year preceding the
7 ~~expiration date of the registration certificate~~ re-registration. If
8 a registration expires before the registrant completes the
9 continuing education requirement, any continuing education that is
10 completed while the registration is expired will be applied to the
11 continuing education requirement for the year preceding the date the
12 registration expired. Once the continuing education requirement for
13 the expired registration is met, along with any other requirements,
14 the apprentice is allowed to re-register after having an expired
15 registration. Three (3) hours of continuing education will still
16 have to be completed in order to meet the continuing education
17 requirement for the subsequent registration year. The continuing
18 education course and instructor shall be approved in advance by the
19 Committee. Exceptions to advance approval, or post-course approval,
20 may be allowed by the Committee, or its designee, for substitute
21 instructors in emergency situations when written notice of the
22 emergency is provided to the Committee, or its designee, within
23 seven (7) days of the course. The location of continuing education
24 courses shall be at the discretion of the course provider and may be

1 scheduled during the workday at the discretion of the course
2 provider. The continuing education material shall cover a
3 combination of the codes and revisions adopted by the OUBCC,
4 Oklahoma electrical industry regulations as well as the rules of the
5 Construction Industries Board, and "electrical safety" as defined by
6 NFPA 70E, other trade subject matters approved by the Committee, or
7 approved continuing education for the contractor or journeyman.
8 Notwithstanding the provisions of this subsection, if an apprentice
9 is a student apprentice or is enrolled and attending an approved
10 course, the continuing education shall not be required.

11 B. The Construction Industries Board shall amend its rules,
12 wherever applicable, to conform to the provisions of the Electrical
13 License Act.

14 SECTION 2. This act shall become effective November 1, 2025.
