9 state, and any rules promulgated thereto including, but not limited
10 to, the drilling, operation, and plugging of wells, closure of
11 surface impoundments, or removal of trash and equipment, provided
12 that such higher amount shall not exceed One Hundred Fifty Thousand
13 Dollars (\$150,000.00). Any instrument shall constitute an
14 unconditional promise to pay and be in a form negotiable by the
15 Commission.

16 B. 1. The Commission upon certification by any operator
17 subject to Category B surety that its plugging liability statewide
18 is less than the amount based on the number of wells operated as
19 specified in this section may allow ~~said~~ the operator to provide
20 Category B type surety in an amount less than the amount required by

24 referred to in this subsection shall take the form of an affidavit

1 from a licensed well plugger estimating the costs of all plugging,
2 closure, and removal operations of the operator requesting such
3 relief. This alternative amount shall be modified upward upon the

2 impoundments to be closed, and trash and equipment to be removed in
3 accordance with the laws of this state and the rules of the
4 Commission. Each bond shall be executed by a corporate surety
5 authorized to do business in this state and shall be renewed and
6 continued in effect until the conditions have been met or release of
7 the bond is authorized by the Commission.

11 and abandon, or cause to be plugged and abandoned, or replug any
12 well or has neglected, failed, or refused to close any surface
13 impoundment or removed or cause to be removed trash and equipment in
14 compliance with the rules of the Commission, then the person shall
15 forfeit from his or her bond, letter of credit, or negotiable
16 instrument or shall pay to this state, through the Commission, for
17 deposit in the State Treasury, a sum equal to the cost of plugging
18 the well, closure of any surface impoundment or removal of trash and
19 equipment. The Commission may cause the remedial work to be done,
20 issuing a warrant in payment of the cost thereof drawn against the
21 monies accruing in the State Treasury from the forfeiture or
22 payment. Any monies accruing in the State Treasury by reason of a
23 determination that there has been a noncompliance with the
24 provisions of the agreement or the rules of the Commission, in

1 excess of the cost of remedial action ordered by the Commission,
2 shall be credited to the Oil and Gas Division Revolving Fund. The
3 Commission shall also recover any costs arising from litigation to
4 enforce this provision. Provided, before a person is required to
5 forfeit or pay any monies to the state pursuant to this section, the
6 Commission shall notify the person at his or her ~~last-known~~ last
7 known address of the determination of neglect, failure, or refusal
8 to plug or replug any well, or close any surface impoundment or
9 remove trash and equipment and ~~said~~ the person shall have ten (10)
10 days from the date of notification within which to commence remedial
11 operations. Failure to commence remedial operations shall result in
12 forfeiture or payment as provided in this subsection.

13 F. It shall be unlawful for any person to drill or operate any
14 oil or gas well subject to the provisions of this section, without
15 the evidence of financial ability required by this section. The
16 Commission shall shut in, without notice, hearing, or order of the
17 Commission, the wells of any such person violating the provisions of
18 this subsection and such wells shall remain shut in for
19 noncompliance until the required evidence of Category B surety is
20 obtained and verified by the Commission.

21 G. If title to property or a well is transferred, the
22 transferee shall furnish the evidence of financial ability to plug
23 the well and close surface impoundments required by the provisions
24 of this section, prior to the transfer.
